

REMARKS***Sequence Listing and Substitute Specification***

The Sequence Listing has been amended from the sequence listing previously filed with the PCT to correct obvious and inadvertent errors. The Substitute Specification has been amended to include a corrected priority statement, and to correct reference to sequence identifiers. Applicants note that a first Preliminary Amendment was filed on March 14, 2006, concurrently with the National Stage application, and Applicants have interpreted 37 C.F.R. 1.125 to mean that the subject matter of the first preliminary amendment, as entered, should be included in this Substitute Specification. Accordingly, the "Related Applications" section and the Claims that are included in the currently filed Substitute Specification reflect entry of the first Preliminary amendment. No new matter has been added. Entry of the Sequence Listing and Substitute Specification are respectfully requested.

Please charge any fees that may be due in this matter to Deposit Account No. 08-0380. A copy of this transmittal is enclosed for accounting purposes.

Respectfully submitted,
